1 in 2 healthy Singaporeans aged 65 could become severely disabled in their lifetime. There is also uncertainty in terms of how long individuals may remain in severe disability, and how much it may cost.

CareShield Life is a national long-term care insurance scheme which provides basic financial protection for you and your loved ones against severe disability.

CareShield Life vs ElderShield

We encourage enrolment into CareShield Life, as it will provide better protection than ElderShield, through higher and lifetime payouts.
